

# Collapse of the Climate House of Cards

Friends of Science Society AGM May 31, 2023

An Overview of Recent Activities

Presented by Michelle Stirling,

Communications Manager

# A Sad Farewell

---

- We are very sad to report the recent loss of Ernie Dutchak, one of our steadfast members of the Friends of Science Society's board of directors.
- Excerpt of his [obituary](#):

*Ernest (Ernie) Dutchak lost his battle with cancer on April 24, 2023 at the age of 80 years. Ernie has lived in Calgary since 1974 and loved this city. He sold real estate with CIR realtors for many years He was a fun-loving guy and followed Jesus. Ernie was hard working and loved his family more than anything.*

*In lieu of flowers you can support two of Ernie's favorite organizations. HART Humanitarian Aid Response Team (90 Freeport Blvd N.E. #10, Calgary, T3J 5J9) Relief work in Ukraine at [www.hart.ca](http://www.hart.ca) or Friends of Science at [www.friendsofscience.org](http://www.friendsofscience.org).*

*Ernie loved playing his violin and was part of the Centre Street Church orchestra.*

**Catherine McKenna**  @cathmckenna · 7h

And for the Canadians, the second person I ran into at #COP27  was my good friend, @AmarjeetSohiYEG! Proud of Edmonton's leadership on climate action!

# Show Stoppers

# Climate – A Make Work Growth Project

1	COP							
2	Party	21	23	24	25	26	27 Grand Total	
3	Democratic Republic of the Congo	304	340	237	293	373	459	2,006
4	Côte d'Ivoire	338	492	208	348	169	226	1,781
5	Brazil	319	128	107	168	479	574	1,775
6	United Arab Emirates	132	104	73	93	176	1,073	1,651
7	Guinea	398	355	406	159	109	85	1,512
8	Canada	382	161	126	145	276	377	1,467
9	Congo	279	308	164	165	170	237	1,323
10	France	395	177	188	124	197	186	1,267
11	Morocco	439	253	104	137	75	205	1,213
12	Kenya	135	62	72	95	308	386	1,058

When one lists the various processes that precede and follow each COP, one cannot help but be struck by the tens of thousands, and perhaps hundreds of thousands, of people who are employed in the governments of the world and in the industries that benefit from climate finance. The “climate industrial complex” is immense and extraordinarily well funded. Like any other successful bureaucratic organization, it thrives by constant growth. <https://blog.friendsofscience.org/2022/11/24/cop-27-what-really-happened-what-did-not/>

# What Straw Will Break the Climate Camel's Back?

- Prior to **COP26**, the developing countries submitted a report that purported to show that **the funding obligations of the wealthier countries should be increased to at least \$1.3 trillion per year from 2025 to 2030.**

- <https://blog.friendsofscience.org/2022/10/25/cop-27-the-show-goes-on/>

# Clintel on “The Frozen Climate Views of the IPCC”

A very Big  
Straw.

[https://clintel.org/download-  
ipcc-book-report-2023/](https://clintel.org/download-ipcc-book-report-2023/)

## THE FROZEN CLIMATE VIEWS OF THE IPCC

An analysis of AR6

EDITED BY MARCEL CROK, ANDY MAY

The IPCC seems obsessed with a few themes: the current warming is unique or their favourite word unprecedented, climate change is all bad and it's caused by CO<sub>2</sub>. This attitude leads to tunnel vision and therefore we chose the title “*The Frozen Climate Views of the IPCC*”. This doesn't mean that CO<sub>2</sub> is not having any effect. Of course, it has. But the evidence that CO<sub>2</sub> and other greenhouse gases are causing ‘dangerous climate change’ is, even after 30 years and 6 major IPCC reports, rather thin.

# Extracts and Cli-Sci – Ever Popular!

The image shows a screenshot of a Yahoo! Mail inbox. The top navigation bar includes links for HOME, MAIL, NEWS, SPORTS, FINANCE, CELEBRITY, STYLE, MOVIES, WEATHER, and MOBILE. The search bar contains the word "extracts".

The first email is from "Friends of Science" (friendsofscience.org, climatechange101.ca) with the subject "FoS Extracts 2023-05-09". The content includes a call to action to share on social media and a link to donate. The main article is titled "The Practical Impossibility of Large-Scale Carbon Capture and Storage" and discusses the US Environmental Protection Agency's new rule setting limits on CO<sub>2</sub> emissions from power plants by 2040.

The second email is also from "Friends of Science" with the subject "Cli-Sci 2023-05-17". It includes a call to action to share on social media and a link to donate. The main article is titled "Electricity Prices Are Soaring in Leading Wind-energy States" and discusses the rising costs of electricity as more wind and solar facilities are built.

# Taking on CBC in Live Streams and Explainers

The video player shows a title card for 'FAULT LINES AT THE CBC'. The card features a dark green background with yellow handprints at the top and bottom. The text on the card reads: 'Presented by Michelle Stirling, Communications Manager, Friends of Science Society © 2023'. There is a logo for 'FRIENDS OF SCIENCE' and a book cover titled 'Fault Lines' with the subtitle 'Expert Panel on the Socioeconomic Impacts of Science and Health Misinformation' and the logo for 'CCA | CAC'.

Context

Climate change [🔗](#)

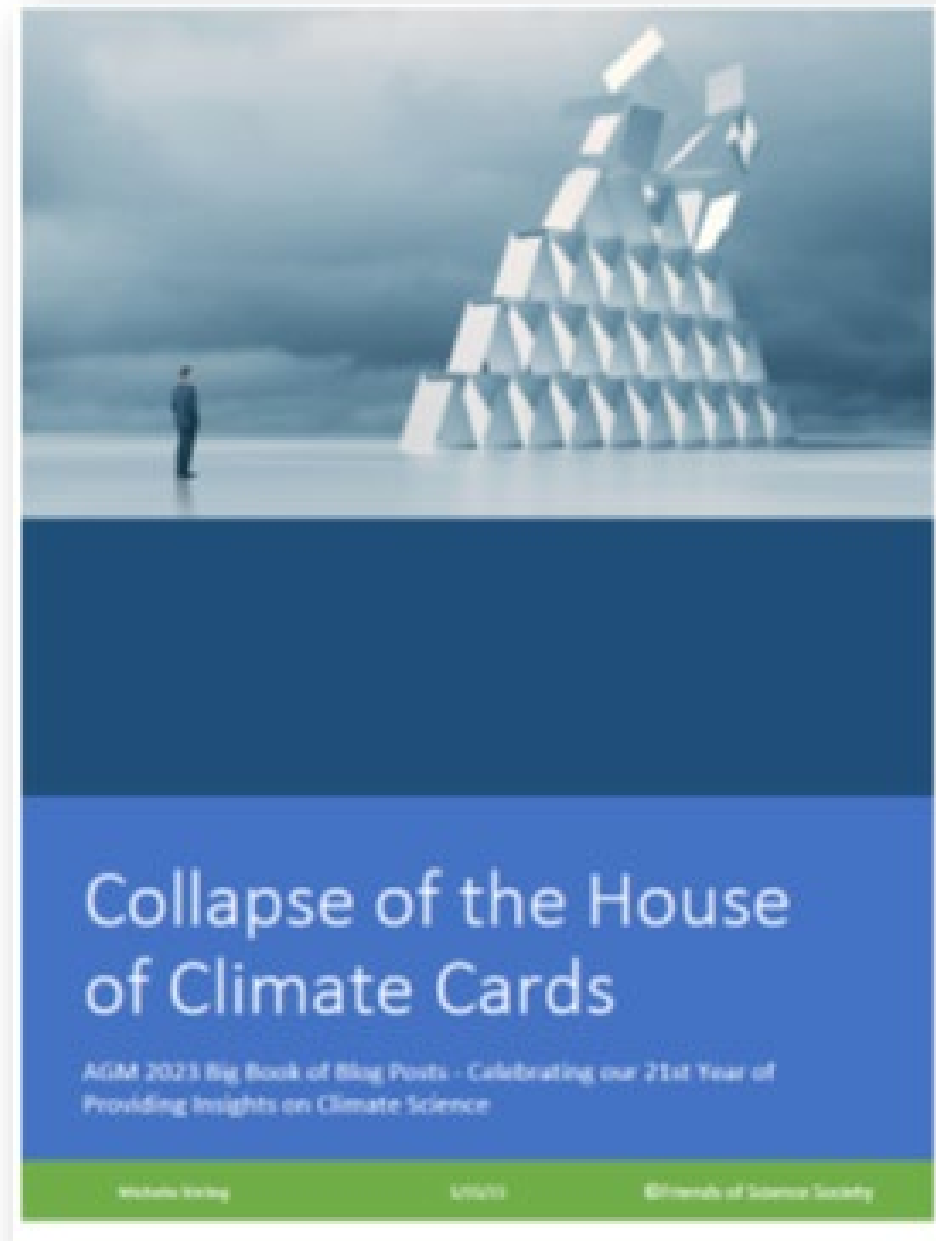

United Nations

Climate change refers to long-term shifts in temperatures and weather patterns, mainly caused by human activities, especially the burning of fossil fuels.

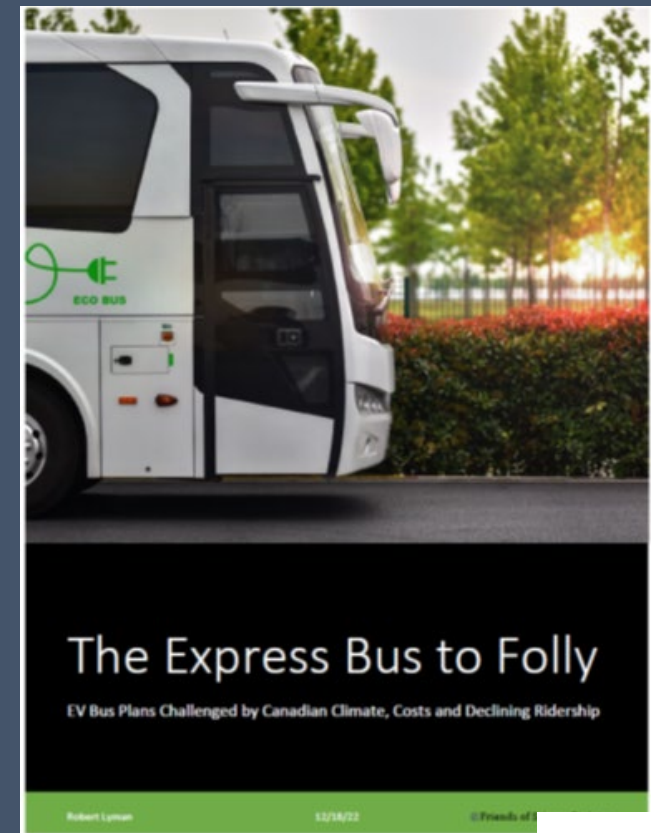

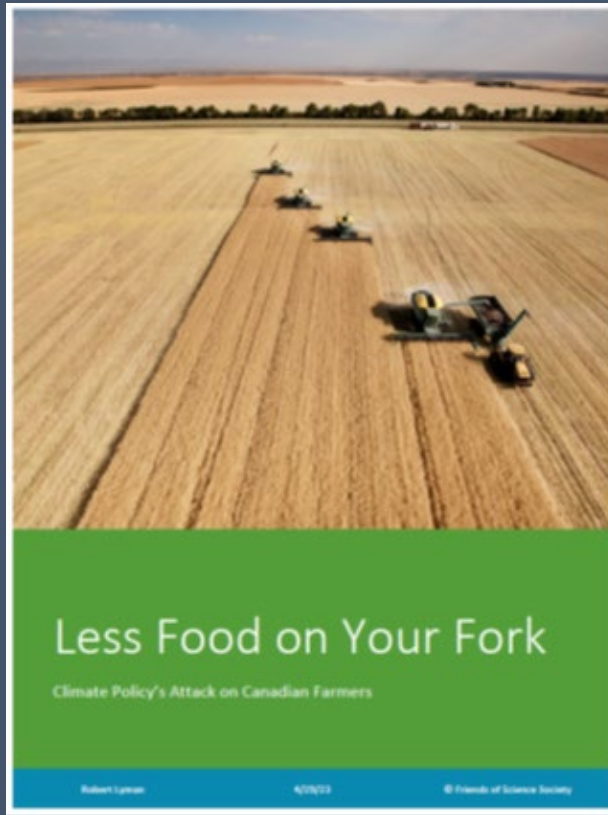

The video player shows a title card for 'A closer look at the inescapable math of climate change Part 1 of 3'. The card features a background of colorful, swirling patterns in shades of red, green, and blue. The text on the card reads: 'Debunking CBC's Climate Propaganda'. Below this, there is a list of bullet points: 'Presented by Michelle Stirling, Communications Manager, Friends of Science Society © 2023'. At the bottom, there is a logo for 'FRIENDS OF SCIENCE' with a sun icon and the tagline 'Providing Insight into Climate Science'.

They all fall  
down.
